Software Developer – Technibit Solutions

April 28 – October 28

1. Introduction

I joined Technibit Solutions as a Software Developer on April 28. After successfully completing my initial 3-month consolidation period, I continued to contribute actively to multiple projects, internal initiatives, and operational workflows until the end of my 6-month confirmation period on October 28.

Throughout these six months, I focused on strengthening my technical skills, understanding product requirements, supporting team operations, and delivering consistent results.

2. Student Count Analysis & Course Verification

Between April and October, a major part of my responsibility involved student and course verification across multiple pods...
